KAVIYA A

+91 7550181538 | kaviyaazhagesan9@gmail.com |linkedin |GitHub| Tiruchirappalli, Tamil Nadu

PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning at SRM Institute of Science and Technology, with a CGPA of 9.46. Experienced in developing AI-driven applications, processing structured and unstructured data, building machine learning workflows, and integrating frontend interfaces with backend APIs. Skilled in Python, SQL, data analysis, NLP, model evaluation, and full-stack development. Demonstrates problem-solving, analytical thinking, and technical communication through academic projects, hackathons, and conference presentations..

EDUCATION

SRM Institute of Science and Technology, Tiruchirappalli, Tamil Nadu **August 2023- May 2027**
B.Tech – Computer Science Engineering, Specialization (Artificial Intelligence and Machine Learning)| **CGPA: 9.46**
Karthi Vidhyalaya Matric Hr. Sec. School **April 2022-May 2023**
Class XII | **Percentage: 80%**

TECHNICAL SKILLS

Programming: Python, SQL, JavaScript
Computer Science Fundamentals: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)
AI & Machine Learning: Scikit-learn, XGBoost, NLP, Model Evaluation
Data Analysis: Pandas, NumPy, Data Cleaning, Exploratory Data Analysis (EDA)
Web Development: React, HTML, CSS, FastAPI, REST APIs
Databases & Tools: MySQL, Git, GitHub, VS Code

PROJECTS

AgriGuard – Paddy Price Forecasting & Smart Agriculture | GitHub
Python · Machine Learning · Pandas · Streamlit

- Developed a machine learning-based agricultural decision-support system using historical paddy prices, data processing, and feature engineering.
- Built an interactive dashboard for price forecasting, market comparison, trend analysis, and sell-or-wait insights.

ResQNet – Road Accident Risk Prediction & Emergency Response | GitHub
Python · Machine Learning · FastAPI · React · OpenStreetMap

- Built an accident-risk prediction system with geographic analysis across five custom zones in Tiruchirappalli.
- Integrated risk mapping, zone classification, weather insights, hospital discovery, and ambulance routing; achieved a ROC-AUC of 0.7835.

FairHire – Explainable AI Resume Screening System | GitHub | View
Python · NLP · TF-IDF · Scikit-learn · FastAPI · React

- Developed a full-stack resume screening platform with PDF processing, resume classification, candidate matching, and an integrated AI chatbot.
- Integrated SHAP and LIME for model explainability and REST APIs for candidate management and chatbot interactions.

VisionEdit AI – AI-Powered Image Editing | GitHub
React · Vite · Python · FastAPI · Grounding DINO · Stable Diffusion

- Developed an AI image-editing application architecture integrating a React frontend with a FastAPI backend.
- Designed workflows for text-guided object detection, object removal, replacement, and AI image generation.

ACHIEVEMENTS & CONFERENCE PRESENTATIONS

- **IECOM 2025 International Conference:** Presented FairHire, focusing on AI-powered resume screening and explainable AI. View
- **1st Prize – SNS National Food Conference:** Recognized for the AgriGuard smart agriculture decision-support project.
- **Finalist – TNWISE State-Level Hackathon:** Presented an ML-based paddy price prediction solution.
- **Finalist – Protothon National Hackathon:** Developed an intelligent ambulance-routing and emergency-response solution.
- **Participant – Smartathon National Hackathon:** Worked on an AI-powered tree-health monitoring platform.

CERTIFICATIONS

- **Srishti Innovative Technopark**: AI Using Python
- **IBM:** Python for Data Science & Introduction to Artificial Intelligence
- **University of London:** Probability & Statistics
- **University of Colorado Boulder**: Dynamic Programming & Greedy Algorithms
- **Internshala**: Web Development Certification

Leadership & Languages: **Secretary, Women Entrepreneurs Club | Tamil, English, Telugu**
